

Greenerhills Homeowners Association
Landscape Application Form for Revisions

This form is required when requesting a change from the Landscape and Irrigation Plans originally submitted and approved by the ARC with your Building Application. Any modification, alteration, demolition or improvement of hardscape including driveways, walkways, patios, decks, walls, fencing or placement of large retaining rocks will require this form. Permanently installed recreational devices such as trampolines and swing-sets also require ARC approval before installation. Major changes to the overall softscape design and plant material should be submitted.

However, minor changes such as the addition of extra trees, shrubs, perennials or annual plant material is allowed without submitting this form.

If the ARC determines the need for professional review, the fees for such review must be paid prior to approval by the ARC. The applicant will be notified if there are any additional fees required before being charged.

Name of Lot Owner: _____

Address of Lot: _____

Lot #: _____

Phone # of Lot Owner: _____

Email Address of Lot Owner: _____

Describe the nature of your request:

Please initial each item to indicate your changes include the following items:

_____ Attach and list all drawings, and/or picture of proposed changes requested.

_____ Location and Type of Materials (color samples may be required).

_____ Listing of Plants by Name and Size of Container, Height or Caliper for Trees.

I understand failure to build in accordance with these plans once they are approved may result in enforcement action by the Association. I further agree to remedy any noncompliance issues and agree to pay any costs incurred by the Association, including Court costs and Attorney's fees.
